

República Oriental del Uruguay

Uruguay Macroeconomic Outlook

Mario Bergara

SEPTEMBER 16th, 2014

Legal Disclaimer

This presentation does not constitute or form part of, and should not be construed as, an offer or invitation to sell securities of the Oriental Republic of Uruguay ("Republic"), or the solicitation of an offer to subscribe for or purchase securities of the Republic, and nothing contained herein shall form the basis of or be relied on in connection with any contract or commitment whatsoever. Any decision to purchase any securities of the Republic should be made solely on the basis of conditions of the securities and the information to be contained in the prospectus, prospectus supplement or equivalent disclosure document produced in connection with the offering of such securities. Prospective investors are required to make their own independent investigations and appraisals of the business and financial condition of the Republic and the nature of any securities of the Republic before taking any investment decision with respect to securities of the Republic. The contents of this presentation should not be the basis for making investment decisions, nor should the presentation be construed as a recommendation to engage in investment transactions. This presentation is not related to the provision of advisory services regarding investment, tax, legal, financial, accounting, consulting or any other related services, nor is a recommendation being provided to buy, sell or purchase any good or product.

This presentation contains forward-looking statements, which include all statements other than statements of historical facts, including, without limitation, any statements preceded by, followed by or including the words "targets," "believes," "projects," "estimates," "expects," "aims," "intends," "may," "anticipates," "would," "could" or similar expressions or the negative thereof. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors beyond the Republic's control that could cause the Republic's actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. These forward-looking statements speak only as at the date of this presentation. The financial information in this presentation should be used for reference purposes only with the understanding that market conditions may change and past performance is not an indicator of future performance. The Republic expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statements contained herein to reflect any change in its expectations with regard thereto or any change in events, conditions or circumstances on which any of such statements are based. However, the Republic reserves the right to update, amend or delete information contained in this presentation without prior notice.

The Republic, the Ministry of Economy and Finance (MEF) and the Debt Management Unit of the MEF do not assume legal responsibility nor will they be liable for the way that this information may be interpreted, including any inaccuracies, assumptions, or projections related to this information. The Republic, MEF and the Debt Management Unit of MEF will not be liable for any loss or damage that directly or indirectly arises with respect to the use of this information.

The information contained in this presentation is provided as at the date of this presentation and is subject to change without notice.
